International Journal of Fracture

CONTENTS OF VOLUME 54 (1992)

Vol. 54, No. 1, 1 March 1992

On the autonomy of the process region	F. SJÖBERG and P. STÅHLE	1
Accelerated fatigue fracture of polyethylene pipe material: crack layer analysis	J.J. STREBEL and A. MOET	21
A consistent few parameter crack growth description procedure	F. NILSSON	35
A new model for characterizing primary creep damage	F.W. BRUST and B.N. LEIS	45
Kinked cracks in bonded half-planes modeled by an integral equation method	W.L. ZANG and P. GUDMUNDSON	65
Linear electro-elastic fracture mechanics of piezoelectric materials	Y.E. PAK	79

Vol. 54, No. 2, 15 March 1992

Crack motion and hydrodynamic flow	F. EMBACHER and H. PETERLIK	101
A fracture-mechanical theory of subcritical crack growth in ceramics	T. FETT	117
Minor role of fractographic features in basic fatigue crack propagation properties	N. SUZUKI, T. MAWARI and A. OHTA	131
Path and kinetics of branching from defects under uniaxial and biaxial compressive loading	M. BARQUINS, J.-P. PETIT, D. MAUGIS and K. GHALAYINI	139
HRR fields for damaged materials	J. WANG and C.L. CHOW	165
Transient thermoelastic fracture of interface cracks: effect of bending restraints	R.R. REYNOLDS and K. KOKINI	185

Vol. 54, No. 3, 1 April 1992

Estimation procedure for the Weibull parameters used in the local approach	F. MINAMI, A. BRÜCKNER-FOIT, D. MUNZ and B. TROLLDENIER	197
Asymptotic deformation and stress fields at the tip of a sharp notch in an elastic-plastic material	S. YANG and Y.J. CHAO	211
Three-dimensional thermal analysis of an infinite solid containing an elliptical surface crack	W.-H. CHEN and C.-C. HUANG	225
Mode I plane stress crack-tip constraint for elastic-plastic materials with different strain hardening	SUN JUN	235
A theoretical analysis of the stress intensity factors varying along the front of a surface crack	P.S. THEOCARIS and D.L. WU	243
A cohesive crack model to study the fracture behaviour of fiber-reinforced brittle-matrix composites	J. LLORCA and M. ELICES	251
On the analysis of mixed-mode failure	M. CHARALAMBIDES, A.J. KINLOCH, Y. WANG and J.G. WILLIAMS	269

Vol. 54, No. 4, 15 April 1992

Stress intensity factors at tips of branched cracks under various loadings	M. ISIDA and H. NOGUCHI	293
New aspects for the generalization of the Sokhotski-Plemelj formulae for the solution of finite-part singular integrals used in fracture mechanics	E.G. LADOPOULOS	317
Crack propagation behavior under creep conditions	P.K. LIAW and A. SAXENA	329
Modeling of crack bridging in a unidirectional metal matrix composite	L.J. GHOSN, P. KANTZOS and J. TELESMAN	345
Microrotation analysis applied to material cracking and toughness	C. WANG and Z.D. CHEN	359
